Achromatic LCR

Three-in-one Sound Bar Loudspeaker System

A nifty audio/video system solution ideal for those who prefer bold aesthetics over traditional box-type loudspeaker systems. The high gloss piano black wood strip on top of the MDF wood cabinet features an artificial leather surface. The LCR sound bar system speakers share identical driver complements for each channel, two 80mm inverted aluminium alloy bass woofer and one 25mm fluid-cooled soft dome tweeter. Each speaker channel work within a nominal 8-ohm impedance. Its capability to convey excellent refinement in sound reproduction amply delivers a full cinematic performance right at the comfort of your own home. Furthermore, its sensible design allows for convenience when mounting in horizontal position to complement flat screen HDTV's as well as accommodate any home cinema size and environment.

Main Features:

- Horizontal position mounting with slot key holes on the back of speaker cabinet
- 25mm soft-dome tweeter driver with a copper-coated aluminium voice coil
- 80mm Inverted aluminium alloy with high gauss ferrite magnet system bass driver
- L/C/R individual speaker channel efficiency is rated at 86 dB at 1volt / 1meter.
- Each L/C/R speaker channel works via separate input terminals, ready for multi channel amplifier output connections

Specifications:

Model	LCR-L	LCR-C	LCR-R
Transducer Complement	2-way	2-way	2-way
Format	small sealed	small sealed	small sealed
Bass	3" 80mm x 2	3" 80mm x 2	3" 80mm x 2
Tweeter	25mm tex	25mm tex	25mm tex
Rec. Amplifier Power	10-100W	10-100W	10-100W
A/V Shield	yes	yes	yes
Nominal Impedance	4	4	4
Sensitivity (2.83V @ 1M)	86dB	86dB	86dB
Frequency Range at -6dB	100Hz – 24kHz	120Hz – 24kHz	100Hz – 24kHz
Dimensions (three in one)	115mm x 945mm x 76mm		
H x W x D (mm)	115mm x 945mm x 76mm		
Finishes	Blackwood / Hi-Gloss Black Sideboard
